

220-2-.161 Cervid Urine Ban

(1) The use or possession of natural cervid urine from cervids outside of Alabama while hunting is prohibited except that cervid urine may be used if produced in a facility that the department determines:

- (a) complies with a federal or a federally approved chronic wasting disease herd certification program and any federal chronic wasting disease protocols and record requirements;
 - (b) does not allow importation of live cervids;
 - (c) requires that all cervids exported from the facility be tested for chronic wasting disease upon death and the results are reported to the facility;
 - (d) is inspected annually by an accredited veterinarian, including inspection of the herd and applicable records; and
 - (e) maintains a fence at least 8 feet high around the facility and, if the facility is located within 30 miles of a confirmed positive occurrence of chronic wasting disease, is double fenced to prevent direct contact between captive and wild cervids.
- (2) Nothing in this regulation shall prohibit the use, collection, or sale of cervid urine products originating from within the State of Alabama.
- (3) This regulation shall not apply to those urine products which are fully synthetic in composition.
